## **New Board of Directors at Aucotec**

Hanover-based Aucotec AG, one of the major German system houses for developing engineering software packages, expands its board of directors as of 1 April 2009. The cofounder and hitherto only member of the board Horst Beran (67) will now be supported by Uwe Voigt (39) and Markus Bochynek (43). As chairman, Beran supervises the departments Administration and Finances of the company, which will celebrate its 25th anniversary next year. Uwe Voigt, at Aucotec since nine years and lately head of the development department, will be responsible on the board level for development, the service center, product management and training courses. There Bochynek is in charge of the sales and marketing departments. He joined Aucotec in October 2008 as head of the sales department after previously having managed the central European sales activities of the American software company Mentor Graphics.
